

BVD PROGRAMME: TEXT MESSAGES EXPLAINED

Animal Health & Welfare NI

**BVD Eradication
Programme**

www.bvdni.com

A summary of potential text returns after submitting BVD samples for testing.

NEGATIVE

Direct negative test result. No action required. Animal free to move.

POSITIVE/ INCONCLUSIVE

Isolate and cull the animal ASAP or isolate, retest (at least 21 days after the first test) and cull if a further positive result is returned.

DAMPI

Isolate and get your vet to take a blood sample from the dam of the positive calf for testing ASAP.

EMPTY

Animal requires a retest via a supplementary button tag or blood sample.

COULD NOT MATCH APHIS OR NO DOB

Check animal(s) are registered on APHIS. Results will automatically issue by text the day after registrations.

NOMINATE A VET

Nominate a Veterinary practice by contacting AHWNI on 028 79639333.
