

## Checklist for BVD PI Removal Incentivisation Scheme

If your answer to any of these questions is “No” your calf is unlikely to be eligible for payment. If you have any queries on the following, please contact the Livestock & Meat Commission (LMC) at 028 9263 3000.

	Question	Yes/No
1.	Are you the owner of the calf?	
2.	Is the calf dead?	
3.	Did you notify the death of the calf to DAERA correctly (via APHIS online or on the MC1 document received by DAERA) <b><i>within 7 days of its date of death?</i></b> *	
4.	Has the death of the calf been notified on or after 1 February 2017?	
5.	Did you record its birth correctly on APHIS? <i>In all cases the birth of the calf must be notified to DAERA not later than 27 days following the birth.</i>	
6.	Was a tissue sample taken from the calf within 20 days of birth?	
7.	Did you send that sample to an approved laboratory for testing within the next 7 days?	
8.	Has the calf tested positive for BVD?	
9.	Was the calf humanely destroyed?	
10.	Did you keep the calf in its herd of origin until it was humanely destroyed?	
11.	Was the calf dead (and notified to DAERA) within 4 weeks of receiving a positive BVD result?	
12.	If you asked for a re-test, was the calf dead (and notified to DAERA) within 6 weeks of receiving the initial positive BVD result?	

***\* Please note that one of the main reasons for claims being considered ineligible is that the death of the calf has not been notified to DAERA by either recording it on APHIS online, or on the MC1 document received by DAERA , within 7 days of the declared date of its death.***
